

Blindfold Driving

This whacky driving event (usually done as part of a full or half day team building day) is great fun but extremely challenging – if not a little different. We actually Blindfold the driver and make them tackle our bamboo obstacle course in our 4x4 vehicles. After the initial brief and tour of the course by your instructor, the scene is set. Each driver will be blindfolded; the remaining team members will be in the rear of the vehicle and will use verbal commands to navigate the driver around the course.

Each driver starts off with 10 points. If your vehicle touches a bamboo you lose a point, if you knock over a bamboo you lose five points and so on... Ultimately you can end up with a very large minus score very quickly if not careful. So the team to have the highest score at the end of the day will be the winning team.

Fact File:

Numbers: 8+ participants

Duration: 40 minutes to 1 hour per group

Additional Information: All drivers must be able to drive a car and have a driver's license.

Benefits:

Communication is key in any business, team members will learn quickly to communicate together otherwise there are serious consequences and points will be deducted accordingly. Teams will learn as the go, it's a progressive challenge. Each time they drive the course they will see other better ways of improving on their score and ultimately will figure out how to achieve success while working together.
